Engineering Informatics is a people-centric business, and we value the quality of our staff above all else. We are always on the lookout for exceptional talent; both experienced consultants and also junior people with the potential to be trained into becoming a key member of our world-class team. We are looking for:

- Junior consultants, willing to be trained as ECM consultants
- Senior ECM consultants
- Technical consultants experienced in SAP Workflow and ABAP.
- Technical consultants experienced in SAP ArchiveLink

Enthusiastic and intelligent team player, willing to learn and integrate
Personality to work as a consultant with varied clients
Eager to work in a fast-growing niche technology area, with the potential to become an internationally recognised expert
Tertiary education (any)
Exceptional communication skills - both written and oral
ECM experience preferred - on any system
SAP experience preferred - in any module
SAP certification desirable, but not compulsory
Business experience - not necessarily in consulting
BPM
Business Analysis
Able and willing to travel and work frequently away from home base, both in Australia and abroad.
Australia Citizenship or Permanent Residence Visa

If you are interested in learning more about a career in ECM at Engineering Informatics, please send your CV to recruitment@ei-anz.com
